MONTEREY WINE FAST FACTS

Spanish missionaries first planted grape vines in Monterey County in the 18th century, over 200 years ago.

Monterey has one of the longest growing seasons due to chilled marine air from Monterey Bay producing vibrantly ripened fruit with dynamic flavors.

Chardonnay and Pinot Noir are the two largest wine grape varieties grown in Monterey County.

Best Pinot Noir - For the last 4 years, Wine Spectator has selected the Pinot Noir from Monterey, and specifically the Santa Lucia Highlands AVA, as the best Pinot Noir in California.

Monterey grows 53 different wine grape varieties, 30 of which have more than 20 cultivated acres per varietal.

Monterey County has 46,000 acres of planted vineyards.

Monterey is the largest producer of Pinot Noir grapes in California.

The Blue Grand Canyon™, a 2-mile deep submarine canyon in the Monterey Bay, deeply influences our wines, affecting the climate and growing conditions of the region.
